### HPL01

Architect-designed luxury lever handle

Designed by Hans Poelzig, a pioneer of Expressionism, this simple lever was originally designed for his IG Farben building in Frankfurt, in 1930. It displays a more human, less mechanical version of Modernism than the self-consciously functionalist and geometric designs of many of his contemporaries. Like all izé luxury door furniture, the lever is available in the full range of izé finishes.

**Length** : 115 mm
