Organic tactile door knob by imaginative designer
This knob, with its heavy organic form, is part of the collection Sticks and Stones and Broken Bones by Faye Toogood. In this collection she has sought to bring the tactile textures of the natural world to the usually geometric realm of hardware. The knob would be ideal to use in conjunction with the stone lever handle. Like all izé luxury door hardware, the door knob is available in the full range of izé materials.

Length : 30 mm
