Architect-designed luxury lever handle

This lever handle, designed by Sergison Bates, one of the most thoughtful and sophisticated practices, is part of a family of hardware that shares a common language of form and making, based on bending, folding and fabricating. In this instance, the shagreen grip has the tactile and naturally patterned texture of the Asian stingrays from which it is taken. Like all izé luxury door hardware, the lever handle is available in the full range of izé materials.
