

bathroom turn by Ludwig Van der Rohe

izé

MIEST02

We are now offering a complementary privacy set with the same design language and the Mies van der Rohe range is complete! Mies' timelessness is in subtle simplicity, capturing the small details is what we tried to continue with this design. In memory of his work: Mansion House Square - the only project he was commissioned to design in London, was saved from fading into twilight from living memory. Thanks to the research of architect and writer Jack Self, we included his design into our contemporary range with respect of deep historical connection and what he represented. Like all izé luxury door hardware, the bathroom turn (MIEST01 - turn design is of the minimised lever / MIEST02 with shorter projection) is available in the full range of izé materials and finishes.

Lenght : 15 mm

Projection : 30 mm

Rose diameter : 50 mm

Finish : Available in all izé finishes
