

MKP05

Architect-designed luxury pull handle

London-based architect Make collaborated with izé on designing ironmongery for its project at 55 Baker Street, London. The Flamingo hardware picked up on the micro-scale the faceted glazed insertion to create a new lobby and atrium that the architect used to give a new life to the building. The pull handle, like the rest of the Flamingo range, reflects and refracts the angular planes of the architecture. Like all izé luxury door hardware, the pull handle is available in the full range of izé materials.

Length : 400 mm

Projection : 71 mm

Finish : Available in all izé finishes
